

## HOLTER MONITORING

Navix Diagnostix is the Northeast's leading outsource solution specializing in cardiovascular services.

Navix Diagnostix is the area's largest provider of full-time and temporary holter monitoring service. We have over twenty years of clinical experience and have been providing holters to hundreds of clients throughout the Northeast. Navix provides physicians with a simple turnkey solution that helps to improve patient care and practice economics. Our years of experience coupled with our high level of expertise and service are unmatched in the industry.
